

## Charles Pinckney National Historic Site

---

Snee Farm was a plantation home of Charles Pinckney (1757-1824), an important national, and South Carolina political figure in the early years of the American Republic. Charles Pinckney's life is significant in American history because of his contribution to the framing of the U.S. Constitution. He was instrumental in founding and leading the Jeffersonian Republican Party in South Carolina making him a significant member of the founding generation of politicians in the United States. Snee Farm contains significant artifacts related to the Pinckney family and the colonial period. CHPI is administrated by FOSU.

Date of President Bush's visit: No
